## ABOUT

I am a 23 year old Self Taught Developer. I love to make things and to learn. I am a good logical thinker and can translate that to my work.

## SKILLS

- HTML
- CSS
- Javascript
- React
- Node.js
- Express
- MongoDB

## PROJECTS

### [Crypto Checker](#)

React - Node.js - Express

- Uses CoinGecko API to gather data about cryptos
- Can search through the crypto list to find a specific one
- Display information about crypto when clicked by user

### [15 Small Projects In 1 Week](#)

HTML - CSS - Javascript

- I did this to improve my skills in making functional components
- Understood how Javascript is used to manipulate the frontend
- Handle bugs and problems that came up during each project

## EDUCATION HIGHLIGHTS

### Udemy - Angela Yu's 2022 Web Development Bootcamp

- Learned HTML, CSS and Javascript
- Introduced technologies for fullstack web development

### University of Santo Tomas - (2015 - 2018)

- Bachelor of Science in Computer Science
- Undergrad

### St. James College of Quezon City - (2012 - 2015)

- Graduated
